

A Safe Escape

Plan your Home Fire Escape Today

Did you know...

- Most fires that kill people happen at night when people are asleep.
- Most fire deaths are caused by inhaling smoke that contains toxic gases.
- Working smoke alarms provide an early warning of smoke and fire danger.
- A well rehearsed home fire escape plan increases your chances of survival.

Fire Escape

Plan your fire escape routes and teach your children the possible exits they may have to use.

**Draw a plan of each level of your home.
Show at least two ways out of each room
and plan a meeting place outside.**
